

TEAMS & GROUPS

MTHS NNDCC

COMMUNITY SERVICE

All cadets are required to complete five hours of community service each marking period. Many cadets complete these hours by volunteering as ushers at the Performing Arts Center for Middle Township Public School District events.

ACADEMIC TEAM

The Academic Team has a strong understanding of the Navy Junior Reserve Officer Training Corps (NJROTC) curriculum. Cadets on the Academic Team participate in academic competitions at drill meets and for “postals” that are held at the school. These results are in competition with other NJROTC/NNDCC programs in the northeast U.S.

ORIENTEERING TEAM

The Orienteering Team participates in orienteering meets in the fall and spring. Orienteering is a combination of cross-country running and land navigation. Cadets who prefer an alternative to running can walk the courses and still practice land navigation skills. It is a great sport for cadets who like the outdoors, as the team competes in beautiful locations such as Tyler State Park. See www.dvoa.org for more information.

CYBERPATRIOT TEAM

The CyberPatriot Team participates in a one-week camp in the summer, trains weekly throughout the academic year, and competes in cybersecurity competitions three times per year. See www.uscyberpatriot.org for more information.

DRILL TEAM

The Drill Team is a marching unit that performs routines based on military drill. Drill Teams can be armed or unarmed and can perform either basic drill movements or exhibition-style drill movements. The Drill Team practices throughout the entire school year so cadets can practice on the team when their other sports and activities are not meeting. The Drill Team participates in three drill meets per year.

COLOR GUARD TEAM

The Color Guard Team presents and protects the colors during drill meets, sporting events, ceremonies, and parades.

ATHLETIC TEAM

The Athletic Team is for those who excel in the area of physical fitness. Cadets on the Athletic Team participate in athletic competitions at drill meets, and for “postals” that are held at the school, with results being in competition with other NJROTC/NNDCC programs in the northeast U.S.

CIVIL AIR PATROL

Cadets who are interested in aviation are invited to join the Civil Air Patrol (CAP) Composite Cape May Squadron, NJ-009, on Thursday nights, from 7 to 9 p.m. CAP cadets get frequent opportunities to go on orientation flights throughout the year. See www.gocivilairpatrol.com for more information.
