MIDDLE TOWNSHIP HIGH SCHOOL PARENTAL INVOLVEMENT POLICY

Middle Township High School will host meetings throughout the school year to which all parents and guardians are invited to discuss their child's educational program and progress. Through Title I and district-funded activities, the school will provide opportunities and resources designed to support student success at the high school.

We strongly encourage parents and guardians to take an active role in their child's educational experience. Our staff is available to meet with families to discuss academic achievement, social-emotional development, progress, and areas of concern. These meetings provide an opportunity to share ideas, identify interventions, and make appropriate adjustments designed to promote success, growth, and learning for each student.

Parents and guardians are also invited to participate in Parent Advisory Committee meetings throughout the school year. These meetings provide an opportunity to learn more about the educational programs and initiatives at Middle Township High School, provide feedback, and offer suggestions for areas of improvement.

We value the partnership between our school, students, and families and look forward to working together to support the success of every student.

Yours in Education,

Dr. Rementer, Principal
Middle Township High School
