Title I School – Parent / Student Compact

Middle Township High School will provide a rigorous curriculum and instruction in a safe, supportive and effective learning environment that encourages participating students to meet the Common Core State Standards, along with the New Jersey Core Curriculum Content Standards. In addition, participating students will be provided additional academic support through tier 1 and 2 interventions that meets every day to provide academic support, adult mentoring and additional accommodations as warranted.

This fall, parent teacher conferences will be held to discuss your child's growth. In addition, parents may communicate with teachers via e-mail, telephone, google classroom or during prearranged conferences. Parents will be able to view their child's academic and attendance records through the parent portal component of Power School. This information is updated at least on a weekly basis. Report cards are finalized digitally at the end of each marking period (45 days) through Power School. The distribution dates are posted on the district calendar and district website.

Parents are encouraged to participate in our Parent Advisory Committee that meets at least 2 times throughout the school year. Also, parents are encouraged to register on their child's Remind App, view our school's website page, register on our blackboard phone list and check our school's Facebook page. The Remind App, school website page, blackboard communication and our Facebook page will provide information throughout the school year that is important. Various events and organizations will ask for parent volunteers to help with events, such as the after-prom, the band and various performance-based events.

Parents are urged to be active partners in their child's school experience to increase their academic success. Student development, growth and learning benefit significantly through parent involvement in all aspects of school life. We encourage each parent to support his/her child by becoming a member of the Parent Advisory Committee, utilizing the Parent Portal in Power School, accessing information on the the school's website page, visiting the school's facebook page to view current information and consistent email correspondence between school and parent. Information is posted regarding upcoming events on the website for parents to view. Again, it is important for parents to remain a positive influence on his/her child's education throughout high school to create a positive and learning environment for student success.
